# Notes for Guidance

## CHAPTER 1 VEHICLE REGISTRATIONS

### Table 1.3

**Tax Class 61 - Not Licensed:** Tax class printed on a Registration Book for a vehicle which has not been licensed with DVA.

**Tax Class 70 - Exempt (No Licence):** Vehicles used exclusively on roads not repairable at public expense.

**Tax Class 88 - Age Exempt:** Certain types of vehicles more than 25 years old.

**Tax Class 93 - D or P Export (Bicycle):** As tax class 92 but relates to motorcycles.

## CHAPTER 2 DRIVER AND VEHICLE TESTING

### Tables 2.1-2.3

**Motor vehicle testing scheme:** Motor vehicles other than goods vehicles, public service vehicles and large private vehicles must be tested at four years and over.

**Passenger service vehicle testing scheme:** Public Service Vehicles (buses and taxis) are tested on application for a licence. Large Passenger Carrying Vehicles are tested at one year old and over.

**Goods vehicle testing scheme:** Goods vehicles are tested at one year and over.

## CHAPTER 3 ROAD NETWORK

### Tables 3.1-3.3

- 1) All figures shown are route lengths.
- 2) Slip roads are not included in the motorway route lengths. Slip road route lengths add up to approximately 19km.
- 3) The labels Class I, II and III were previously used in these tables. They have now been replaced by the labels A, B and C roads. Please note that Class I are A roads, Class II are B roads and Class III are C roads.
- 4) Adopted roads are maintained by Roads Service.
- 5) The locations of council boundaries do not coincide with boundaries used by Roads Service for motorway maintenance purposes. The figures given here for motorway lengths within council areas are a close approximation.

## CHAPTER 4 FREIGHT

### Table 4.2

A Roads Service licence is required by any person or company wishing to use a bus or coach to carry passengers by road for reward. Each licence specifies the fleet which the holder may use and the services he wishes to operate.

### Table 4.3-4.5

Table 4.3 shows results from the Continuing Survey of Road Goods Transport (CSRGT) and tables 4.4 and 4.5 report results from the Continuing International Road Haulage Survey (CIRHS), both of which are conducted by the Department of Transport. These surveys provide information on the journeys and loads made by goods vehicles of over 3.5 tonnes.

Please note that from January 2004, in particular for the international activity, there is a discontinuity in series due to a change in the methodology and the type of information that has been collected. This follows a recommendation in the recent Review of Road Freight Statistics (National Statistics Quality Review Series, Report No.30) to start a new survey, CSRGT (NI), which collects information

on all activity undertaken by NI hauliers.

Firstly, there is a large increase in the amount of tonnage reported as going to/from the Irish Republic. This is because information previously supplied reflected only those trips where the journey, carried out by NI hauliers, either started or ended in Great Britain. One of the reasons for starting the CSRGT (NI) was to collect information of activity which crossed the Irish Land Boundary. This information is reflected in the 2004 tables.

Secondly, there is a decrease in the amount of activity reported as going to/from mainland Europe which is most likely to be caused by a reduced number of international trips being reported in the weekly sample. This is due to a change in the sampling methodology. Sampling via the IRHS was targeted specifically at those hauliers who held an International Operators licence and were known to operate in mainland Europe (approx 10 hauliers were sampled each week). The CSRGT (NI) differs in that the weekly sample is a random selection of approx 30 HGVs which are registered in Northern Ireland. It is therefore less likely that the same number of trips to Europe will be reported each week in the CSRGT (NI).

#### **Table 4.6-4.7**

The transport of freight by rail to and from Northern Ireland ceased as of the 31st December 2003. All freight will now be transported by road.

## **CHAPTER 5 ROAD TRAFFIC INJURY COLLISIONS**

The data in 5.1 to 5.5 are now in calendar year format. Financial year data are available on request from CSRB.

**Collision:** Collision involving personal injury occurring on the public highway (including footpaths) in which a vehicle is involved.

**Killed:** Died within 30 days from injuries received in an accident.

**Serious injury:** An injury for which a person is detained in hospital as an 'in-patient', or any of the following injuries whether or not they are detained in hospital: fractures, concussion, internal injuries, crushings, severe cuts and lacerations or severe general shock requiring medical treatment.

**Slight Injury:** An injury of a minor character such as a sprain, bruise or cut not judged to be severe or slight shock requiring roadside attention.

**Casualty:** A person who sustains a slight, serious or fatal injury.

**Children:** Under 16 years of age.

## **CHAPTER 6 PUBLIC TRANSPORT**

Citybus changed to Metro in February 2005. Metro integrated Citybus and greater Belfast Ulsterbus services.

## **CHAPTER 7 AIR TRANSPORT**

**Aircraft movement:** An aircraft take-off or landing at an airport. For airport traffic purposes, one arrival and one departure are counted as two movements.

**Air transport movements:** Landings or takeoffs of aircraft engaged in the transport of passengers, cargo or mail on commercial terms. All scheduled movements including empty aircraft, loaded charter and air taxi movements are included.

**Air taxi movement:** Movement by a light aircraft operating on a non-scheduled service. These are

predominantly sole-use charter operations.

**Passenger traffic (Terminal):** All revenue and non-revenue passengers on air transport movements flights where the passenger joins or leaves an aircraft at the stated airport.

**Scheduled services:** Those performed according to a published timetable, available for use by the general public.

**Charter services:** All other services.

## CHAPTER 8 GENERAL TRANSPORT STATISTICS

### Tables 8.3 and 8.4

The Labour Force Survey (LFS) is a sample survey of approximately 60,000 private households in the United Kingdom each quarter. Respondents are asked questions about their economic activity and related issues. In Great Britain the survey has been conducted quarterly since spring 1992. In Northern Ireland the survey was carried out annually until the winter of 1994-95, when a quarterly survey was introduced.

### Table 8.6

Due to the revisions made by DTI in January 2005 to all motor spirit and DERV figures for the years 2001 to 2003 we are unable to provide split figures for the individual categories of petrol (Unleaded Super, Premium and Premium (95 Ron) and Lead Replacement) for 2003-04. Unfortunately DTI were unable to provide split figures for their revisions.

### Table 8.7

**Other craft:** Includes incidents involving military vessels, military aircraft, civilian aircraft, etc.

**No person or craft involved:** Includes incidents in which no craft or person was involved such as hoaxes and false alarms.

### Table 8.8

The figures in the table show the number of ferry traffic passengers travelling on each route, to and from Northern Ireland.
